

AFFILIATIONS

The Oklahoma Transportation Library is affiliated with a wide range of groups, including the National Transportation Knowledge Network (NTKN), the Oklahoma Department of Transportation (ODOT), and the Southern Plains Transportation Center.

INVOLVEMENT

Through its partnership with the Southern Plains Transportation Center, the Oklahoma Transportation Library provides opportunities for both professionals and students including webinars, guest speakers, summer internships, the student-led Transportation Leadership Council, and more!

Monday - Friday: 8 a.m. to 5 p.m.

Services at the Oklahoma Transportation Library

University of Oklahoma

ABOUT THE OTL

The Oklahoma Transportation Library is generously funded by the Oklahoma Department of Transportation. Our collection has over 15,000 materials available to browse in person or online. We are a closed collection, meaning that only ODOT employees may check out materials from our collection. However, most of our materials are available for download from our digital catalog and all non-ODOT patrons are welcome to visit our collection in-person.

OUR SERVICES

Research Materials

The OTL offers a wide variety of engineering research materials for patrons to browse. Our collection includes state and university research reports, soil surveys, maps, journal articles, periodicals, and other formats covering a wide variety of transportation topics.

PE/FE Exam Materials

We offer ODOT employees access to freely borrow PE/FE exam study materials and in-library only access for students and other patrons.

Study Spaces

Our library has multiple spaces available for patrons to research, study, work on projects, collaborate, or simply browse and enjoy the collection. We have computer stations, work desks, and conference seating for group work.
